VIRUFOAM® HAND CARE

ALCOHOL FREE ANTI-MICROBIAL FOAM HAND RUB

VirusFoam is a powerful anti-microbial hand rub that is dispensed as a foam to provide a controlled delivery application and to improve effective spread of the product over the skin surface.

VirusFoam contains didecyldimethylammonium chloride and chlorhexidine gluconate as the active components and is formulated without using alcohol to make it kinder on the skin.

Primary features attributable to the VirusFoam are:

- Non-flammable
- Completely Alcohol free
- Effective anti-microbial action
- Fast acting
- Simple foam based application
- Gentle on the skin

Packaging

- 50ml container
- 550ml container

This product is not a Medicine

DISINFECTANTS

Application

VirusFoam may be advantageously used in healthcare environments and veterinary practices for hand sanitising applications. VirusFoam may also find application in the food industry, catering and hotel sectors.

The product is supplied in a plastic container with a foaming dispensing head.

VirusFoam Properties

- VirusFoam is a pH neutral product and has a broad compatibility with materials and fabrics normally encountered during normal recommended use.
- VirusFoam is classified as non-hazardous and is hand safe.
- The product is not flammable and is biodegradable.
- See Material Safety Data Sheet for details.
